No Demand For Cattle at Portland

(From The Oregon Journal.)
Most of the hogs that came to North Portland Thursday were from the midwest with the market weak. Cattle were depressed while sheep and lambs indicated a steady tone.
No cattle came to North Portland for the Thursday trade, but none were wanted. State staff is still floating around the yards and buyers go in the other direction when they see a cattle salesman approaching. There is absolutely no demand for cattle here at the moment and at the best quotations are on a nominal basis.
North Portland has gotten into the habit of basing its entire cattle market for the week upon the sale of one or two high priced loads Monday. Appearances indicate that the Monday market is always more or less manipulated and with one or two loads selling high, killers justify themselves in charging extreme prices for all their

beef even though they did not pay the high priced basis.

Market for hogs was again under pressure at the opening of Thursday morning sales at North Portland. There was a liberal run of 1536 head

in the alleys but 1273 head, or 19 loads, came from the midwest direct to killers. The latter appear uninterested in home offerings and the few loads coming forward met only with neglect except on Monday. Then the big packers try to force the little fellows to pay a big price while they remain out of the buying. It keeps the little fellows from competing in the meat trade.
General hog market range:
Prime light.....\$10.75@11.00
Smooth heavy, 230-300 pounds..... 10.00@10.50

Strength Shown in Bond Market.
NEW YORK, April 7. (A. P.)—Unlike the stock market, bonds yesterday showed no pronounced expansion of operations, but the tone in almost every division was strong, sentiment being influenced by the ready sale of the Czechoslovakian \$14,000,000 issue.
Liberty 3 1-2s and several of the 4s and 4 1-2s duplicated or exceeded previous high records.
Foreign flotations made no material change, but strongest features of that group were the Mexican 5s and Chinese railway 5s.
An unusual number of domestic rails rose to high records of a year or more. St. Louis & San Francisco adjustment 6s, Seaboard Air Line refunding 4s and Consolidated 6s, New Haven 4s and Minneapolis & St. Louis 4s and refunding 5s registered gains of 1 to 2 3-4 points.
Total sales, par value, aggregated \$16,549,000.
Trading on the stock exchange assumed the vast dimensions of the hectic days of the world war. Sales at extreme gains of 1 to 6 points aggregated 1,575,000 shares.
Over 70 issues scored highest quotations of the year, and in many instances for two or more years. Virtually all classes of stocks were carried forward by the movement, which probably comprehended the largest number of separate issues ever traded in at this center.
The same causes which gave momentum to the markets of the past few weeks were again the controlling factors—namely, cumulative signs of financial, industrial and commercial revival. These are most clearly expressed by the keen inquiry for new underwritings, domestic and foreign, steady expansion of iron and steel at higher prices and marked gains shown by railroad earnings.
Steels, motors, equipments and oils were the conspicuous features of the day, but rails, shippings, chemicals, leathers, textiles, tobaccos and utilities helped to swell the enormous turnover.
Selling for profits, such as inevitably accompanies such a sweeping advance, made a pronounced impression upon prices in the last hour, the realizing movement being attended by an advance in call money from 4 1-2 to 5 per cent. United States Steel closed at a slight loss and other steels and related issues suffered correspondingly.

OUTBURSTS OF EVERETT TRUE

NO, SIR, MR. TRUE, I'M NOT IN FAVOR OF THE SOLDIERS' BONUS! AFTER THEY GOT THE STUFF IT WOULDN'T BE LONG BEFORE THE MOST OF THEM WOULD HAVE IT ALL BLOWN IN ON A LOT OF FOOLISHNESS!

EVEN SO, YOU HADN'T OUGHT TO FEAR A LITTLE COMPETITION LIKE THAT!!!

On the other hand, oils, especially Mexican and Pan-American petroleum, Market-street railway preferred and prior preferred, United Railways investment and several of the rails, notably Reading and Texas & Pacific, rose to the day's highest figures.
The very irregular course of foreign exchanges, to which Italian and German rates were the only striking exceptions, was ascribed in large part to the demand made by England on her former allies for interest payments on war loans. Eastern exchange rates were firm on the success of the Czechoslovakian loan, and the Greek quotation was not affected by adverse financial reports from that country. In the South American group marked weakness was shown by Argentine gold and paper rates.

We have received word from the Easter Bunny that he doesn't plan to fill many nests this year. "Speaking of eggs," he remarked, "youngsters nowadays are so hardboiled they don't believe in the Easter Bunny any more than they believe in Santa Claus."
Smiles attract, frowns repel; which do you use?
After marriage a woman generally loses her admiration for a cave man and his methods.
An Elevated Thought
We see by the papers where a fresh young man kissed a girl right under her chaperone's nose. It would have been better to have kissed her right under her own.

ABSOLUTE PROTECTION

As long as people live in wooden houses, have wooden furniture, and keep fires going, just so long is there much danger of loss by fire.

But the small annual cost of \$3.00 or over provides at least absolute protection for deeds, contracts, leases, policies, tax receipts, letters, jewelry, keepsakes and such when placed in the strong vaults of this bank.
